ABDULRAHMAN ALHOMSI

Damascus • 00963948893796 • abdalrhmanhomse99@gmail.com

SUMMARY

Recent graduate in Information Technology Engineering with a specialization in Artificial Intelligence from Damascus University. Possess foundational knowledge in data analysis, machine learning, and natural language processing (NLP). Eager to apply AI skills to real-world challenges and continuously develop expertise in cutting-edge technologies.

EDUCATION

Bachelor of Information Technology Engineering   Sep 2019 - Sep 2024

Damascus University

WORK EXPERIENCE

AI Internship   March 2024 - Present

SHAIFORAI
- working on data analysis| ML| data science projects online

Data science project

Traffic crashes in Chicago
- analyze and study traffic crashes in the city of Chicago
- Utilized datasets: traffic crashes, crash-involved people and vehicles, street centerlines, police beat boundaries, and CBD boundary in Chicago.

COMPETITIONS

Two-time Participant, Syrian Collegiate Programming Contest (SCPC)

Competed in the national level of the ICPC, advancing problem-solving and algorithmic skills through real-time challenges.

SKILLS
- Programming Languages: Python, C++, Java
- Machine Learning: Scikit-learn, TensorFlow, Keras
- Data Analysis: Pandas, NumPy, Matplotlib, seaborn
- Natural Language Processing (NLP): NLTK, SpaCy
- Version Control: Git, GitHub
- BackEnd: Django
- DataBase: SQL

LANGUAGES

- English
- Arabic(Native speaker)
